

Nek Chand Saini

by Thukral and Tagra

Surely **Nek Chand Saini** never thought that his hobby creations, which remained secret for 18 years, would be pioneered as an important art movement in India. He would never have dreamt he would stand among the great masters and receive unmatched recognition and the most prestigious awards. We were born after the creation was launched officially as the *Rock Garden* in 1976 and we were always visiting and playing in the garden. It is an important artistic achievement and for us, a true work of art.
