

KUNSTHAL ROTTERDAM: THE MUSEUM OF EVERYTHING

The Kunsthal Rotterdam is proud to present The Museum of Everything, a major overview of international work from over a hundred alternative artists from the 19th, 20th and 21st century. Famous for its powerful and emotive installations, The Museum of Everything celebrates private and non-academic art-makers whose creations remain independent of art history and language.

The Museum of Everything is not a typical art experience. The design of its shows are created in collaboration with Oscar nominated production designer Eve Stewart (Les Misérables) and have welcomed over 750,000 visitors worldwide. These careful installations lead the visitor deep into the personal worlds of unconventional creators, where the established rules of art are replaced by the visual language of dream, ritual and detail. Within The Museum of Everything there are no limits to the possibilities of the imagination.
