Outside In

From jailbirds to janitors, and miners to mediums, the newly launched Museum Of Everything is London's first and only public space for artists and creators living outside the boundaries of mainstream society.

Located in a former dairy and recording studio, the opening exhibits include the paintings of Haitian voodoo priest Hector Hyppolite (pictured), the cloth figurines of Indian roadworker Nek Chand, and the disturbing fairytale illustrations of American recluse Henry Darger.

The Museum Of Everything,
 Sharpleshall St, London NW1.
