

DE THEATER HAVC/VWO

/MUSEUM OF EVERYTHING

Wednesday, 20 April marked the launch of the freshmen's cultural project. The students have created a mobile museum with their own exhibition in it, taking inspiration largely from the exhibition The Museum of **Everything**, which they visited on Wednesday as a starting point to their project.

On the first day the freshmen visited the exhibition in the morning. They were given a tour to hear all the stories behind the works and take inspiration. The exhibition is a traveling exhibition that shows Outsider Art. After the tour, they went back to school to work out their ideas. In the afternoon, the students also wrote fantastic and creative stories and philosophized about Outsider Art. On Thursday morning they took part in several workshops on such themes as travel, given by the international artist Maritz Ebinger; dreams, by former student Mia Olsthoorn; and fashion, by stylist Chi Weber.

Since Friday TVH has had its own The Museum of **Everything** on site thanks to the creativity of the freshmen.
