### The Museum of Everything

From June 2017, Mona will play host to The Museum of Everything, a British non-profit organisation dedicated to the exhibition, advancement and integration of private and non-academic artists.

This is the first time The Museum of Everything will visit Australia. The exhibition will feature over 1,500 works from the 19th, 20th and 21st centuries, arranged over a series of themed spaces in an informal journey through human making. Included in the show are drawings, sculptures and paintings, as well as ceramics, collage, photography, assemblage, plus found objects and installations.
